EXPERIENCE

Nipissing University

Jan. 2026 – Apr. 2026

Software Developer, Honours Research Capstone

North Bay, ON

- Built multimodal video understanding platform covering full SDLC; deployed end-to-end on AWS EC2.
- Integrated and tested 9 neural network models across a distributed microservices architecture.
- Built and consumed RESTful APIs connecting perception, fusion, and narrative services.

Nipissing University

May 2023 – Aug. 2025

Web Developer, Research Assistant

North Bay, ON

- Gathered requirements from faculty member and delivered features across the full SDLC using Git version control, branching, and pull request workflows.
- Built and tested responsive HTML5/CSS3/JavaScript layouts integrated with a database-backed CMS.

PROJECTS

Cloud-Chat | Java, Firebase, HTML/CSS | [GitHub](#)

- Built distributed real-time chat app in Java using Firebase Realtime Database with async event-driven communication.
- Documented CAP theorem analysis and eventual consistency tradeoffs; wrote JUnit tests and Maven build configuration.

job-hunt | Python, FastAPI, React, TypeScript, SQLite, Docker | [GitHub](#)

- Built full-stack platform with FastAPI backend, React/TypeScript frontend, Docker Compose, and Nginx reverse proxy.
- Wrote 4 integration test files covering ATS classifier and scraper modules; scraped 7 job boards concurrently.

indeed-stealth-scraper | Python, FastAPI, Playwright | [GitHub](#)

- Built modular scraper with proxy rotation, exponential backoff, and FastAPI RESTful API exposing scrape and export endpoints.
- Wrote integration test suite in live Playwright environments; documented root cause analysis on bot-detection failures.

Inventory | Python, Flask, Docker, Firebase, Google Cloud Run | [GitHub](#)

- Built cloud-based inventory system with role-based access control, RESTful API endpoints, deployed to Google Cloud Run.
- Integrated Firebase Realtime Database and Cloudinary CDN; managed code using Git with collaborative workflows.

EDUCATION

Nipissing University

April 2026

B.Sc. Honours Specialization in Computer Science

North Bay, ON

- **Awards:** President's Scholarship (2021), Carl Sanders Scholarship (2022, 2023, 2024, 2025)

SKILLS

Languages : Java, Python, JavaScript/TypeScript, HTML5/CSS3, SQL

Frameworks & APIs : FastAPI, React, Flask, RESTful API development

Tools & Platforms : Docker, Git, AWS (EC2, S3, SQS, DynamoDB, Cognito), Firebase, Google Cloud Run

Testing : pytest, JUnit | **Concepts:** Distributed systems, microservices, containerization, agile development
